Skills

LANGUAGES

C++, Python , JavaScript

FRAMEWORKS

ReactJS , Flask

Coursework

- Data Structures
- Design and Analysis of Algorithms
- Operating Systems
- DBMS
- SQL

Education

2020-2024
B.TECH. IN CS
ABES Engineering
College CGPA : **7.3/10**

2018-2020
INTERMEDIATE
Vanasthali Public
School Percentage:
93.4%

Experience

MICROSOFT *May 2022 - June 2022*

Mentee

Developed Web Applications (in Python).

Worked with various technologies such as flask and SckitLearn.

Projects

Movie Recommendation System | [Link](#)

A web application that utilizes machine learning to recommend movies to users based on their preferences. The system recommends movies with similarities to the user-selected movie, using the Count Vectorizer and Cosine similarity techniques. The web application was built using modern front-end frameworks and technologies, and the back-end was implemented using a database to store the movie data and machine learning model. This project allowed me to hone my skills in both front-end and back-end development, as well as gain experience in applying machine learning concepts to a real-world problem.

Certifications

- PCAP: Programming Essentials in Python - CISCO NETWORKING ACADEMY | [Link](#)
- CYBER SECURITY ESSENTIALS- CISCONETWORKING ACADEMY | [Link](#)
- RESPONSIVE WEB DESIGN – FREECODECAMP | [Link](#)

Extra-curricular

- FOOTBALL
- CHESS
- BADMINTON
- TRAVELLING
